

2022 EQUITABLE EXPANSIONS LEGISLATIVE AGENDA

The past two years have told a clear story: Our families, our economy, and our communities depend on one another. At the same time, the COVID-19 pandemic has shown that the labor at home and at work of women, and of mothers in particular, is essential yet undervalued. It's time we change that. The major victories of the 2021 session set out a bold new vision for our state and we are asking lawmakers to continue this work in 2022. In 2022, we are fighting for:

NEW AND EQUITABLE LEGISLATION

Progressive revenue policies that ask wealthy Washingtonians to invest in our state's future, so that children, families, communities, and small businesses can thrive

Fixing outdated unemployment insurance laws that penalize working parents who lose their jobs because they lost child care

Expanding access to dental care by authorizing dental therapy statewide

Reimbursement for people with lived experience who serve on legislative work groups so their expertise and time is respected

EXPANSIONS OF OUR HISTORIC WINS

Equitable, high-quality implementation of the Fair Start for Kids Act so all families have access to the early care and education opportunities that meet their needs

Improving Washington's Paid Family & Medical Leave program with administrative improvements and policy changes that center families, mothers, and caregivers

An equitable community-informed rollout of the Working Families Tax Credit in 2023
