

Legislative Agenda 2022 — UFCW 21

Workers across Washington are standing up for safer working conditions in the face of a pandemic, fixing Washington's broken tax structure, ending systemic racism, addressing the climate crisis, and fighting to make our state a state that is affordable for everyone.

Just like how we fight in our contract bargains, and vote at the ballot box, we must work to make progress on these pressing issues during the 2022 legislative session:

-  Protect Health Care Workers and Improve Patient Safety
-  Workplace Safety
-  Investing in Workforce Development
-  Cannabis Equity
