

2021-23 Biennial Budget Proposal Comparison

Throughout the 2022 Legislative Session, the Governor, House of Representatives, and Senate will each propose a supplemental operating budget for the remainder of the 2021-2023 biennium. The operating budget determines the level of funding for all state spending, including many investments and programs that serve communities living on low incomes in Washington state.

After each branch of government introduces a budget proposal, the House Appropriations committee and Senate Ways & Means committee hold hearings on these proposals and ultimately pass a negotiated budget. Throughout the legislative session, Statewide Poverty Action Network will provide an overview of the budget proposals that impact low-income communities.

Going into this legislative session, the budget will have to again contend with the economic crisis created by the COVID-19 pandemic. Legislators will also come into the legislative session with a small state budget surplus and approximately \$1 billion in remaining American Rescue Plan Act (ARPA) funds that can be spent in 2022. We will advocate for continued and increased investments in programs that support those living on the lowest incomes in our state, who have also most deeply felt the impacts of this pandemic.

BASIC NEEDS

Temporary Assistance for Needy Families (TANF) assists parents with incomes so low they cannot meet basic needs for themselves and their dependent children. [Click here for more details about the program.](#)

State Family Assistance (SFA) provides a cash assistance program comparable to TANF to documented immigrant families with children who have resided in the U.S. less than five years and do not yet qualify for the federal TANF program.

Poverty Action priority: Poverty Action supports continued investments to TANF and policy changes that restore policies which prioritize equity and the well-being of families and children. We are advocating to undo harsh policies which prevent families experiencing hardship from accessing TANF and create inequitable outcomes for Black, Indigenous, and Latino/a families.

The **Housing and Essential Needs (HEN)** program provides rental, utility, transportation assistance and hygiene supplies to very low-income adults who either have a temporary disability that prevents them from working or who have a permanent disability and are in the process of applying to federal Supplemental Security Income (SSI).

Poverty Action priority: We are committed to protecting all investments and increasing state resources for HEN. The ongoing COVID-19 pandemic has demonstrated the deep importance of housing to the wellbeing of all Washingtonians. We support this program for vulnerable adults along with deeper housing investments.

The **Aged, Blind and Disabled (ABD)** program provides a \$197 monthly cash grant to low-income elderly and disabled adults who are waiting to transfer to federal Supplemental Security Income (SSI). A small number of disabled and elderly immigrants who are not eligible for the federal programs also receive assistance through the ABD program. Recipients use their grant to pay for housing and meet their basic needs.

Poverty Action priority: We support raising the ABD cash grant to \$417/month to create parity with a one-person TANF cash grant.

Medical Care Services (MCS) provides health care and dental coverage for elderly or disabled immigrants who receive Aged, Blind, or Disabled (ABD) assistance or Housing & Essential Needs (HEN), but who are ineligible for Apple Health, our state’s Medicaid program, because of federal limits on serving immigrants.

Poverty Action priority: Maintain current investment and benefits.

Dental Coverage is one of the benefits of our state’s Medicaid program, Apple Health, which provides critical access to dental care for low-income communities. The Medicaid dental budget has long been underfunded, to the detriment of patients’ access to care. Approximately 1.3 million Medicaid-insured Washingtonians, including more than 440,000 children, went without dental care in 2019. In 2021, the legislature doubled their investments to the Medicaid Adult Dental program which included doubling the reimbursement rates for providers. Additionally, the Legislature restored funding from the 2020 supplemental budget

Poverty Action priority: We support maintaining current levels of investment, opposing any cuts to this essential health program, and investing in strategies to increase access to oral health care.

The **State's Food Assistance Program (FAP)** helps immigrant families and individuals avoid hunger by providing subsidies to help purchase food. This is a critical investment, because immigrants are not eligible for the federal Supplemental Nutrition Assistance Program (SNAP – formerly called Food Stamps) until they have been in the U.S. for five years.

The **Housing Trust Fund (HTF)** is a part of the capital budget and is the main source of funding to build, restore, and maintain for affordable housing in our state. This housing makes it possible for people living on low incomes to afford housing and still have enough money to cover other basic needs. Investing in the HTF creates thousands of jobs and generates millions of dollars in state and local tax revenues.

Poverty Action priority: We support housing advocates’ priority of investing a \$400 million into the Housing Trust Fund.

REVENUE

In Washington state, people with low incomes pay up to six times the amount of their personal income in taxes compared to the top one percent of income earners. Our state also regularly faces budget shortfalls, threatening necessary investments in basic education and essential health and human services.

Poverty Action priority: Continue making strides toward enacting progressive revenue, which will increase funding essential services such as education, child care, health care, and other human services. Ensure those investments are equitable and require the wealthiest Washingtonians to pay their fair share of taxes.

In 2021, after 13 years of advocacy, the legislature updated and fully funded the **Working Families Tax Credit (WFTC)**, to provide a targeted tax credit to the lowest income earners in the state and will play a critical role in rebalancing the current inequity in our tax code. Budget priorities for the WFTC this year include funding for implementation infrastructure and outreach to communities who will benefit from the WFTC as it goes into effect in 2023.
